

'Focusing on what is still preserved, not on what is damaged or lost, creates an atmosphere where people with dementia, and their loved ones, can complete their life in a dignified way in a location of their choice.'

Because people with dementia also want to live at home as long and as comfortable as possible.

upbeat

A care team at home working together with all partners within and outside the care system, with attention to abilities and opportunities and confidence in the future.

Opmaat is een zorgvernieuwingsproject dat gefinancierd wordt door het RIZIV

upbeat

Because people with dementia also want to live at home as long and as comfortable as possible.

Upbeat therefore offers :

- » A care team at home according to the needs of the person with dementia, irrespective of age.
- » A synchronized team which collaborates with all partners involved, from the time of diagnosis till the end.
- » With your own family doctor as key figure
- » Support for families and caregivers
- » Residential care (day / night care and short stay) if required

Your contact- and coordination point in the region of Westerlo, Herselt, Laakdal, Meerhout, Tessenderlo, Diest, Mol, Geel, Kasterlee, Herentals
